PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in software testing, networking, web technologies, and AI-based projects. Skilled in manual testing, SQL, defect tracking, and application quality assurance. Strong analytical and problem-solving abilities, with a keen interest in Information Technology, software quality, and digital banking systems.

TECHNICAL SKILLS

Programming: Python, Java, SQL, C++

Testing: Manual Testing, Functional Testing, Regression Testing, UI Testing, Test Case Design, Defect Reporting

Tools: Jira, Postman, GitHub, VS Code, Office 365

Database: MySQL, SQL Queries

Concepts: SDLC, STLC, Defect Life Cycle, Networking Fundamentals

Soft Skills: Communication, Teamwork, Critical Thinking, Adaptability

EXPERIENCE

QA Intern — Dark Matter Production Pvt. Ltd.

May 2026 – Present

Kathmandu, Nepal

- Tested web and mobile applications manually to check if features are working correctly.
- Wrote and executed test cases, and reported bugs using Jira.
- Did basic API testing using Postman/Swagger and helped verify bug fixes with developers.

Network Intern — HiTech Solution and Services Pvt. Ltd.

May 2024 – June 2024

Remote

- Assisted in network configuration and troubleshooting.
- Supported network performance monitoring and optimization.
- Worked with networking infrastructure and connectivity issues.

EDUCATION

Kalinga Institute of Industrial Technology

2021 – 2025

Bachelor of Technology in Computer Science and Engineering

Bhubaneswar, Odisha, India

Delhi Public School, Birgunj

2018 – 2020

Central Board of Secondary Education

Birgunj, Nepal

PROJECTS

AeroGuard: Aircraft Damage Detection | [Live Demo](#)

April 2025

- Developed aircraft damage detection models using deep learning and computer vision techniques.
- Trained and tested models to improve defect detection accuracy and overall performance.
- Worked on model deployment and evaluation using Python, TensorFlow, OpenCV, and Gradio UI.

Multimodal Sentiment Analysis | [Python](#), [Deep Learning](#), [OpenCV](#), [CNNs](#), [NLP](#)

Sep 2024

- Built a multimodal sentiment analysis system using textual and visual data.
- Applied CNN and NLP techniques for sentiment prediction.
- Improved performance through multimodal feature fusion.

CERTIFICATIONS

- Prompt Engineering for ChatGPT
- Generative AI: Introduction and Applications
- Generative AI: Prompt Engineering Basics

ACADEMIC ACHIEVEMENTS

- Received **fully funded scholarship** for Under Graduation by Indian Government under the scheme of SII Scholarship by getting top rank among 500000+ applicants (2021-2025) | [Link](#)
